When in French Nov 24 2022 A language barrier is no match for love. Lauren Collins discovered this firsthand when, in her early thirties, she moved to London and fell for a Frenchman named Olivier—a surprising turn of events for someone who didn't have a passport until she was in college. But what does it mean to love someone in a second language? Collins wonders, as her relationship with Olivier continues to grow entirely in English. Are there things she doesn't understand about Olivier, having never spoken to him in his native tongue? Does "I love you" even mean the same thing as "je t'aime"? When the couple, newly married, relocates to Francophone Geneva, Collins—fearful of one day becoming "a Borat of a mother" who doesn't understand her own kids—decides to answer her questions for herself by learning French. *When in French* is a laugh-out-loud funny and surprising memoir about the lengths we go to for love, as well as an exploration across culture and history into how we learn languages—and what they say about who we are. Collins grapples with the complexities of the French language, enduring excruciating role-playing games with her classmates at a Swiss language school and accidentally telling her mother-in-law that she's given birth to a coffee machine. In learning

French, Collins must wrestle with the very nature of French identity and society—which, it turns out, is a far cry from life back home in North Carolina. Plumbing the mysterious depths of humanity's many forms of language, Collins describes with great style and wicked humor the frustrations, embarrassments, surprises, and, finally, joys of learning—and living in—French.

The Moral Sex May 18 2022 How was the nature of women redefined and debated during the French Enlightenment? Instead of treating the Enlightenment in the usual manner, as a challenge to orthodox ideas and social conventions, Lieselotte Steinbrugge interprets it as a deviation from a position staked out in the seventeenth century, namely, "the mind has no sex."

[Born in Blackness: Africa, Africans, and the Making of the Modern World, 1471 to the Second World War](#) Aug 29 2020 Revealing the central yet intentionally obliterated role of Africa in the creation of modernity, *Born in Blackness* vitally reframes our understanding of world history. Traditional accounts of the

making of the modern world afford a place of primacy to European history. Some credit the fifteenth-century Age of Discovery and the maritime connection it established between West and East; others the accidental unearthing of the "New World." Still others point to the development of the scientific method, or the spread of Judeo-Christian beliefs; and so on, ad infinitum. The history of Africa, by contrast, has long been relegated to the remote outskirts of our global story. What if, instead, we put Africa and Africans at the very center of our thinking about the origins of modernity? In a sweeping narrative spanning more than six centuries, Howard W. French does just that, for *Born in Blackness* vitally reframes the story of medieval and emerging Africa, demonstrating how the economic ascendancy of Europe, the anchoring of democracy in the West, and the fulfillment of so-called Enlightenment ideals all grew out of Europe's dehumanizing engagement with the "dark" continent. In fact, French reveals, the first impetus for the Age of Discovery was not—as we are so often told, even today—Europe's yearning for ties with Asia, but rather its centuries-old desire to forge a trade in gold with legendarily rich Black societies sequestered away in the heart of West Africa. Creating a historical narrative that begins with the commencement of commercial relations between Portugal and Africa in the fifteenth century and ends with the onset of World War II, *Born in Blackness* interweaves precise

historical detail with poignant, personal reportage. In so doing, it dramatically retrieves the lives of major African historical figures, from the unimaginably rich medieval emperors who traded with the Near East and beyond, to the Kongo sovereigns who heroically battled seventeenth-century European powers, to the ex-slaves who liberated Haitians from bondage and profoundly altered the course of American history. While French cogently demonstrates the centrality of Africa to the rise of the modern world, *Born in Blackness* becomes, at the same time, a far more significant narrative, one that reveals a long-concealed history of trivialization and, more often, elision in depictions of African history throughout the last five hundred years. As French shows, the achievements of sovereign African nations and their now-far-flung peoples have time and again been etiolated and deliberately erased from modern history. As the West ascended, their stories—siloes and piecemeal—were swept into secluded corners, thus setting the stage for the hagiographic "rise of the West" theories that have endured to this day. "Capacious and compelling" (Laurent Dubois), *Born in Blackness* is epic history on the grand scale. In the lofty tradition of bold, revisionist narratives, it reframes the story of gold and tobacco, sugar and cotton—and of the greatest "commodity" of them all, the twelve million people who were brought in chains from Africa to the "New World," whose reclaimed lives shed a harsh light on our present world.

Grub Street Abroad Jun 19 2022 Eighteenth-century French readers who wanted to keep up with political and literary trends had to rely on books and journals imported from abroad. French writers, such as Voltaire and Rousseau, also depended on foreign firms to get their works in print. *Grub Street Abroad* demonstrates the importance of extraterritorial

publishing for the Enlightenment and the French Revolution. By placing the periphery at the centre of the stage, it highlights neglected cosmopolitan aspects of the French Enlightenment and points to forces which undercut Bourbon claims of cultural hegemony. Firms serving French markets from abroad are viewed as part of a far-flung communications network which, although sensitive to diplomatic pressures from diverse courts, still comprised a relatively autonomous, independent field of operations. Topics covered include the publishing and editing of francophone journals and clandestine manuscripts; the emergence of the book review and the editorial board; the reliance of the philosophes upon foreign firms; the cosmopolitan outlook of so-called 'Grub Street hacks'. Overall, a revised picture of the nature and importance of publishing in the period emerges - a presentation that will provoke and interest a wide range of historical, literary, and bibliographical specialists.

The French Beauty Solution Jan 22 2020 A New York Times bestseller! Cofounder of the international beauty company Caudalie shares the simple, natural, time-tested beauty secrets she learned growing up in France that any woman can use to look younger, healthier, and more radiant without harsh products or drastic procedures. When Mathilde Thomas moved from her native France to the United States to expand her skin-care company, Caudalie, she

wanted to find out what American women wanted from their beauty routines. She interviewed thousands of women and was struck by how different the French and American approaches to beauty were. American women are all about the quick fix—the elusive product or procedure that will instantly solve a nagging beauty problem, even if it hurts, is wildly expensive, or is damaging in the long term. The French, by contrast, approach beauty as an essential and pleasurable part of the day, a lifelong and active investment that makes you look and feel good. Mathilde used these insights to turn Caudalie into one of America's top beauty brands. Drawing on her company's twenty years of scientific skin-care expertise backed by the research of doctors and dermatologists—as well as the beauty secrets she learned growing up on a vineyard in Bordeaux—The French Beauty Solution covers everything from how to use natural ingredients such as oil and honey to wash your face; what foods to eat for healthier hair, skin, and nails; and the amazing properties of grapes and grapeseed oil. She also introduces an easy three-day grape cleanse that European aristocrats have been using to detox for hundreds of years. Blending stories, science, DIY recipes, and tons of savoir faire, The French Beauty Solution is the last beauty regimen you'll ever need.

[The French Book](#) Jun 26 2020 The book as the subject of a distinct historical discipline dates from the landmark publication of L'Apparition

du livre by Lucien Febvre and Henri-Jean Martin in 1958. In this further contribution to his pathbreaking work with Febvre, eminent French historian Henri-Jean Martin explores the role of the book and book industry in early modern France. Martin begins with a sweeping look at the revolutionary role played by the new technology of printing in Europe of the Renaissance and Reformation. Shifting the focus to France, he then examines the political implications of publishing in the reign of Francis I, including such topics as the founding of royal and university libraries, the role of church-state relations, Richelieu's cultural program, and censorship. In revealing case studies of Rouen and Grenoble, Martin pinpoints precisely which books were sold and to which social groups, and explains why the initially successful printers of Rouen were eventually forced out of business by the Parisian courts. Martin also casts a discerning eye on early graphic design—from the first illustrated "coffee table" books purchased by the newly rich to the invention of the paragraph to facilitate reading. And he shows how attempts by the French government to suppress and control publication were eventually thwarted by free market forces from Amsterdam and Neufchatel. This is a book that will be of interest to those who study the history of the book, intellectual history of early modern Europe, and the relation between politics and ideas.

French Connections Mar 04 2021 French Connections examines how the movement of people, ideas, and social practices contributed to the complex processes and negotiations involved in being and becoming French in North America and the Atlantic World between the years 1600 and 1875. Engaging a wide

range of topics, from religious and diplomatic performance to labor migration, racialization, and both imagined and real conceptualizations of “Frenchness” and “Frenchification,” this volume argues that cultural mobility was fundamental to the development of French colonial societies and the collective identities they housed. Cases of cultural formation and dislocation in places as diverse as Quebec, the Illinois Country, Detroit, Haiti, Acadia, New England, and France itself demonstrate the broad variability of French cultural mobility that took place throughout this massive geographical space. Nevertheless, these communities shared the same cultural root in the midst of socially and politically fluid landscapes, where cultural mobility came to define, and indeed sustain, communal and individual identities in French North America and the Atlantic World. Drawing on innovative new scholarship on Louisiana and New Orleans, the editors and contributors to *French Connections* look to refocus the conversation surrounding French colonial interconnectivity by thinking about mobility as a constitutive condition of culture; from this perspective, separate “spheres” of French colonial culture merge to reveal a broader, more cohesive cultural world. The comprehensive scope of this collection will attract scholars of French North America, early American history, Atlantic World history, Caribbean studies, Canadian studies, and frontier studies. With essays from established, award-winning scholars such as

Brett Rushforth, Leslie Choquette, Jay Gitlin, and Christopher Hodson as well as from new, progressive thinkers such as Mairi Cowan, William Brown, Karen L. Marrero, and Robert D. Taber, *French Connections* promises to generate interest and value across an extensive and diverse range of concentrations.
